Full-Stack Web Developer | React.js | FastAPI | Spring Boot

PROFESSIONAL SUMMARY

Full-stack web developer with proven experience delivering production client websites using React.js, FastAPI, and PostgreSQL. Skilled in building responsive, mobile-first UIs, integrating third-party APIs, and deploying full-stack applications with CI/CD pipelines. Backend internship experience with Java, Spring Boot, REST APIs, and JPA/Hibernate. Strong foundation in data structures, algorithms, and database design. Seeking frontend, backend, or full-stack developer roles.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, Vue.js, HTML5, CSS3, Framer Motion, Responsive Design, Glassmorphism UI

Backend: FastAPI (Python), Spring Boot, Java, Spring Data JPA, Hibernate, REST APIs, CRUD Operations

Databases: PostgreSQL, MySQL, MariaDB, MongoDB

APIs & Integrations: WhatsApp API, Google Maps API, REST API Design, Postman, API Testing

DevOps & Deployment: Vercel, GitHub CI/CD, Cloud Server Deployment, Git, GitHub

Languages: JavaScript, Python, Java

Core CS: Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks

EXPERIENCE

Freelance Full-Stack Web Developer | Rishabh Enterprises, Remote

- Built and deployed a full-stack business website for a solar panel manufacturing company using React.js, FastAPI (Python), and PostgreSQL, delivering a production-ready client product end to end.
- Developed a scroll-based canvas animation with 300 image frames synced to user scroll, creating an immersive product showcase inspired by Apple-style product pages.
- Integrated WhatsApp API, Google Maps embeds, and a live contact form with backend email handling to enable lead generation and customer inquiries.
- Deployed the frontend on Vercel using GitHub CI/CD pipelines and hosted the backend on a cloud server, enabling automated deployments on every code push.
- Designed a responsive, mobile-first UI with Framer Motion animations and glassmorphism effects, delivering a polished user experience across all device sizes.
- Optimized performance using lazy loading, image compression, and efficient asset delivery, reducing initial page load times.

Java Spring Boot Backend Developer Intern | Farenexus Solutions Pvt. Ltd., Mohali, Punjab

- Developed RESTful APIs using Java, Spring Boot, and Spring Data JPA following controller-service-repository architecture for modular, scalable backend design.
- Integrated MySQL with JPA/Hibernate ORM, implementing entity mapping, relationships, validations, and error handling for reliable data operations.
- Tested and debugged API endpoints using Postman to ensure consistent JSON responses and smooth frontend-backend integration.
- Delivered well-documented REST contracts to frontend developers, troubleshooting integration issues during feature development.

PROJECTS

AttendEase - Student Attendance Management System

Tech Stack: Java, Spring Boot, MySQL, Spring Data JPA, Hibernate, Vue.js, REST APIs, HTML, CSS, JavaScript

- Built a full-stack attendance management system with Vue.js frontend and Spring Boot backend, managing student records, attendance sessions, assignments, notes, and reports.
- Developed RESTful APIs for core modules including student records, attendance tracking, session management, and analytics reporting using layered architecture.

- Designed relational database schema with Spring Data JPA and Hibernate ORM, supporting entity relationships, cascading operations, and data integrity constraints.
- Implemented multi-filter reporting (weekly, monthly, semester-wise) with Excel export support to streamline administrative workflows.
- Validated API functionality and edge cases using Postman, ensuring robust error handling and reliable data flow between frontend and backend.

Personal Portfolio Website

Tech Stack: React, TypeScript, Tailwind CSS, FastAPI, Vite

- Built and deployed a responsive full-stack portfolio using React, TypeScript, and Tailwind CSS to showcase projects, skills, and professional availability.
- Developed a modern dark/light mode UI with smooth animations, mobile navigation, SEO metadata, and downloadable resume support using Vite.
- Created FastAPI REST endpoints for project data and health monitoring, with fallback project data ensuring reliable frontend rendering.
- Implemented a validated contact form with SMTP email delivery and rate limiting, and integrated live project demos with GitHub repositories.

EDUCATION

Bachelor of Computer Applications (BCA) | JIMS Rohini | 2023 - 2026

Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, Computer Networks, Operating Systems

Senior Secondary (Class 12) | SBV Ashok Nagar | 2023 | 75%

Secondary (Class 10) | MLKSD | 2021 | 68%

CERTIFICATIONS

- Programming in Java - NPTEL Online Certification, IIT Kharagpur (Jul 2025 - Oct 2025)
- Flutter & Dart Training - Ainwik Infotech
